

## Soil Solutions

**“We just found out that we can’t start building until we resolve our contaminated soil issues!?”**

**Hilltop Enterprises offers a one-stop Total Soil Solution™ - we are uniquely aligned to handle all of your soil removal or remediation projects and all parts of the project, big and small!**

Hilltop Enterprises combines our expertise in contaminated soil remediation solutions with removal experience and resources to handle every need and every phase of the process.

## WHY HILLTOP ENTERPRISES?

### One-Stop Solution

Hilltop Enterprises offers a One-Stop Solution by offering options for both removal and remediation services.

### The 7-Point Discovery Checklist

Every Hilltop Enterprises project begins with our 7 Point Discovery Checklist where we uncover all of the project details, determine the necessary service and provide removal or remediation recommendations.

### Total Soil Solution™

Hilltop Enterprises handles all levels of soil and all parts of the project, big and small – we offer a Total Soil Solution™.

### Educational/Collaborative Approach

Hilltop Enterprises always conducts an Educational/Collaborative Approach to client service. We make sure that you and/or your client are on-board, every step of the way, and that the details are explained and documented to ensure that the project moves along smoothly.

### Comprehensive Coaching and Project Updates

We make ourselves available to all clients to provide Comprehensive Coaching and Advice on all of your soil remediation issues. From pre-project planning to final project sign-off, we make sure that you are made aware of and understand every detail!

All Hilltop Enterprise clients have the option to receive Daily Project Updates that detail the status of their project. You can even sign up to receive Hilltop Enterprises Instant Alerts™, where you receive instant notification on specific milestones within your project.

### Project Management System

With the Hilltop Enterprises unique Project Management System, you always have access to all important documents, timelines, contact information and status reports.

### Transportation Logistics Management System

Hilltop Enterprises offers each of our clients access to our Transportation Logistics Management System™. This system ensures that you are always aware of the status and location of your soil.

### One-Call Program™

As a client of Hilltop Enterprises, you are automatically entitled to participation in our One-Call Program. If, at any time, a soil issue should arise, or if you have any questions whatsoever, just give us a call and we will be there to provide our expert advice.

### Knowledge Network

Hilltop Enterprises maintains a local Knowledge Network of strong relationships with an array of local and national contacts on whom we can call at any time to consult regarding your environmental needs.

“When my client needed a company that could handle their contaminated soil issues, I turned to

Hilltop Enterprises. I knew that they were the only ones with the local expertise and the processes in place to get the job done quickly. They kept me and my client up to speed at every step along the way. When my client needed to produce essential paperwork to their builders, all they had to do was access the project management system and they had what they needed within minutes. I am happy to consider Hilltop Enterprises a partner to my law practice.”

## SOIL REMOVAL

Hilltop Enterprises is pleased to be able to offer assistance to meet your needs in all steps of the soil removal process. Some of these steps are:

### Disposal Facility Pre-qualifications

Hilltop will review your analytical at a quick glance. Our experts can decide which facility can handle your soil in order to help you avoid rejection charges.

### Preprinted Manifests

Hilltop will provide each site location with preprinted manifests. Each manifest is a 4-part carbon-copy to ensure that each company in the chain receives some form of the original.

### Truck Scheduling

Hilltop's management staff will ensure that the right number of trucks arrive at your site. This eliminates excess down-time on expensive excavation equipment.

### Site Management

Hilltop has the capability to provide site personnel to help with truck movement on your site on a case-by-case basis.

### Disposal Site Coordination

Hilltop will schedule your loads into the proper disposal facility. Hilltop will also ensure that you have the correct amount of analytical to complete your soil removal.

### Data Tracking

Hilltop provides clients with carbon copies and/or scanned copies of all truck shipments. On larger projects, Hilltop provides clients with a loading log detailing date of shipment, quantity shipped and load numbers.
